Human Connect To Human

Tokio Hotel

With me somewhere, one night to share
Just you and me, we spread the seed
Eyes catch, you are so natural
Human connect to human
Boy meets girl, know what to do
Human connect to human
How can I connect to you?
Human connect to human
Boy meets girl, know what to do
Human connect to human
How can I connect to you?
A kiss, a touch never enough
So soft, so hot, don't stop, you start
And test the skills like animal
Oh, human connect to human
Boy meets girl, know what to do
Human connect to human
How can I connect to you?
Human connect to human
Girl meets girl, know what to do
Human connect to human
How can I connect to you?
Let me interact, how can I connect?
Let me interact, how can I connect?
Hit me, hit me, hit me, hit me
Human connect to human
Boy meets girl, know what to do
Human connect to human
How can I connect to you?
Human connect to human
You and me know what to do
Human connect to human
How can I connect to you?
Let me interact, how can I connect?
Let me interact, how can I connect to you?
