

# Pressure Suit

## Future Flight

Well, two spinning spheres  
Two spinning spheres in a bed of stars  
Silence is super, staring into space  
I wonder where you are  
You're all that I've ever needed  
I know that you won't feel it  
Drift out into darkness, lost out on horizon  
It's alright, it's alright  
I'll be your respirator, I'll be your pressure suit  
It's alright, it's alright  
Violently clear the upper atmosphere  
Raging out your hearts  
Somewhere far beneath your pointed tongue  
And teeth is where you really are  
Don't want to be forgiven  
But drag you down from where you are  
Drift out in the darkness, lost out on horizon  
It's alright, it's alright  
I'll be your respirator, I'll be your parachute  
It's alright, it's alright, ooh, ooh  
I'll be your respirator, I'll be your pressure suit  
It's alright, it's alright  
I will not let you go, oh  
Two spinning spheres, they spin together, I'm gon' spin alone  
I don't know how I can do this, I don't know how to get through  
It's alright, it's alright  
I can't stop loving you, I can't stop loving you  
I can't stop loving you, I can't stop loving you  
I can't stop loving you, I can't stop loving you  
I can't stop loving you, I can't stop loving you  
I can't stop loving you, I can't stop loving you  
It's alright, it's alright  
I'll be your respirator, I'll be your pressure suit  
It's alright, it's alright  
I'll be your four leaf clover, I'll be your pressure suit  
I'll be your angel wings, I'll be your parachute  
I'll be your running reason, I'll be your only reason, oh  
I can't stop loving you, I can't stop loving you  
I can't stop loving you, I can't stop loving you

It's alright, it's alright  
I'll be your respirator, I'll be your pressure suit
