

# Here's Some Love

**Tanya Tucker**

I been watchin' you cryin' when you do, I just feel like dyin'  
I could give you somethin' that would ease your mind, yeah  
Let me give it to you just a little bit would do you  
It's somethin' you been needin' for a long, long time Here's some love, take a little bit of it home with you  
Keep it close to you, save it for a rainy day, hey, hey, hey  
Here's some love, take a little bit of it home with you  
It'll grow with you, some day you can bring it back to stay Don't you keep me waiting now what's the use in  
hesitating?  
You know as well as me, it's what you're looking for, yeah  
Put your lips on mine now, now, now, we can make it feel so fine now  
You never have to be without it any more Here's some love, take a little bit of it home with you  
Keep it close to you, save it for a rainy day, hey, hey, hey  
Here's some love, take a little bit of it home with you, baby  
It'll grow with you, someday you can bring it back to stay Here's some love, take a little bit of it home with you  
Keep it close to you, save it for a rainy day, hey, hey, hey  
Here's some love, take a little bit of it home with you, oh yeah  
It'll grow with you, someday
