Baby Love Child

Pizzicato Five

When I see you alone, I see what's in your mind
You love me, yes you do, you don't need to tell me
I know you love me most, no one else take my place
You need me, yes you do, forever and everWhen we kiss, I see what's in your heart
You love me, yes you do, you don't need to tell me
I know you love me most, no one else take my place
You need me, you do, forever and everWe are love, baby love child
I take you so high, groovy love child
Give me a kiss, baby love child
Do it againAttention adults
Attention adults
Attention adults
Attention adultsWe are in bed at night, I can see what you want
You want me, yes you do, aishiteimasu
I know how you feel, you have all of my heart
I give you myself, forever and everWe are love, baby love child
I take you so high, groovy love child
Give me a kiss, baby love child
Do it againAttention adults
Attention adults
Attention adults
