

# Part Of Me

Lara Fabian

Look in these eyes you'll see the dark  
That little space inside my heart  
The darkest side withholds the light  
The light that brightens me inside  
You don't know  
Angels don't fly, they have no wings  
It is another of those things  
That we make up, that we believe  
The real thing is not what we conceive  
You don't know, I won't let you see me  
I will hide, I will lie as true as can be  
You just don't have what it would take  
To be a part of me  
The darkest side withholds the light  
The light that shines, you can't deny  
You don't know  
You don't know, I won't let you see me  
I will hide, I will lie as true as can be  
You just don't have what it would take  
To be a part of me  
You don't know  
You don't know, I won't let you see me  
I will hide, I will lie as true as can be  
You just don't have what it would take  
To be a part of me  
These arms are my heart  
These arms are my heart  
These arms are my heart  
These arms are my heart  
These arms are my heart  
These arms are my heart  
These arms are my heart  
These arms are my heart  
These arms are my heart  
These arms are my heart  
These arms are my heart
