Terminate

G Dub

Try!All that is dead around me
Lifeless in the wake of catastrophe
Burning in my mind, I am not deceived
Judgment into my own mortalityNow that the soul is free
I severed ties of man and machine
Now that the soul is free
I bled my heart of all it can bleedLighting the spark, igniting the fuse
Destroyed the lies and saw absolute truth
From out of darkness and into the light
The future is wide open and is on my sideNow that the soul is free
I severed ties of man and machine
Now that the soul is free
I bled my heart of all it can bleedTry!
War!
Try!
War!Try!
War!
Try!
War!You can't stop it
You can't kill it
And it won't stop coming
Until you're deadNow that the soul is free
I severed ties of man and machine
Now that the soul is free
I bled my heart of all it can bleedNow that the soul is free
I severed ties of man and machine
Now that the soul is free
I bled my heart of all it can bleedTry!
War!
Try!
War!
