Changing Us

Brendan James

We?ve come closer than we wanted, we?ve seen what we never should
And we will not be the same. We?ll never be the same, no.
Like steel we are so resilient, but too much and we?re weak as children.
We were not meant to be made witness to these scenes, no.
Gunshots in a broken palace, planes crashing and burn around us
It?s different than it ever was, darker than it?s ever been
Three shouts and thank God I found you
With the crowd and the fog around you I?ll never let you fall, I?ll never let you fall
Oh Heaven can you hear us
Right now we are not sure
But I hope it will get better
These times we?re in together, they?re changing us forever
Two kids in a crooked alley, school canceled again
And now they won?t learn a single lesson except how to load a weapon

And right here on this old soil we hope for peace and we pray for joy
But like everybody else we?re still fighting with ourselves
Oh heaven can you hear us
Right now we are not sure
But I hope it will get better
These times we?re in together, they?re changing us forever
Oh heaven can you hear us
Right now we are not sure
I hope it will get better
These times we?re in together, they?re changing us forever
Oh heaven can you hear us
Right now we are not sure
But I hope it will get better
These times we?re in together, they?re changing us forever
