

# Nieces Pieces

## Xiu Xiu

I can't wait to watch you get older  
I can't wait to meet that first boy that breaks your life  
I can't wait till you realize the family, you've been born into  
I can't wait to watch you turn from good to bad  
I can't wait to tell your grandpa made your mommy Play stripper while your uncle watched  
I can't wait to tell you, I punched your mommy in the chest  
In front of her new friends  
I can't wait till you realize, mommy's heart is broken  
I can't wait to watch you grow up around the people who broke it
