Dark

Ryan Beaver

Way out here
You can feel it coming
You don't need no weatherman
First comes the rain
Then comes the pain
And thunder rolling
Sirens scream
I don't give a damn

Power lines they'll go to shaking
Twister come & I keep on drinking
Let the lights go out in this town & in my heart
Bring it on
I ain't afraid of the dark

This ain't my
First fight with lonely
Before we met
I lived for the night
I'll admit I liked it loving you only
We both knew
You & I were just a matter of time

Power lines they'll go to shaking
Twister come & I keep on drinking
Let the lights go out in this town & in my heart.
Bring it on
I ain't afraid of the dark

(Instruments)

Toe to toe with your memory
Shadows dancing in front of me
Got a bad case of the used to be's
You used to be mine yeah
You used to be mine

Oh I keep on shaking
Twister come & I just keep on drinking
Let the lights go out in this town & in my heart

Bring it on, I ain't afraid
Bring it on I ain't afraid of the dark
Of the dark
No man, I aint afraid of the dark
Of the dark
Of the dark of the dark
