

No More Rain

Kylie Minogue

Have you ever thought
That the sky was just endlessly dark?
And then you look up
And see a million stars
Have you ever been scared
Of the water and stuck on the edge?
And then you dive in
How quickly you forget
Your fears that kept you awake at night
Now that I'm back in the light
So warm, I feel it like a
Wave of love coming over me
Got a glitter drop to fall and I'm on my knees
Got the sound of you ringing in my ears
Sun coming up on another day
Got a second hand chance, gonna do it again
Got the rainbow colors and no more rain
No more rain
No more rain
No more rain
No more
Have you ever dreamt
You were flying until you look down?
You never moved an inch
Feet firmly on the ground
Our love
Carries the hurt that you hold
Funny, how life can unfold
Oh yeah, I feel it like a
Wave of love coming over me
Got a glitter drop to fall and I'm on my knees
Got the sound of you ringing in my ears
Sun coming up on another day
Got a second hand chance, gonna do it again
Got the rainbow colors and no more rain
No more rain
No more rain
No more rain
No more

Wave of love coming over me
Got a glitter drop, fall and I'm on my knees
Got the sound of you ringing in my ears
Sun coming up on another day
Got a second hand chance, gonna do it again
Got the rainbow colors and no more rain
Wave of love coming over me
Got a glitter drop to fall and I'm on my knees
Got the sound of you ringing in my ears
Sun coming up on another day
Got a second hand chance, gonna do it again
Got the rainbow colors and no more rain
No more rain
No more rain
No more rain
No more
