

Cheat Codes (feat. Emblem3)

Jack & Jack

When I'm with you girl I swear
I don't need anything
Anything, oh no, no no (yeah)
When you chill on the couch
Ain't gotta go out that's fine with me
Yeah, said that's fine with me (yeah)
You popped in a movie, that didn't fool me (no)
We both know why you're here
Bad intentions in the air
So just breathe (Just breathe)

Never thought I'd find this woman
But here you are in front of me
So I think we should get a move on
Got no time to waste so let's cut to chase

She plays the type of games
That make me want
My cheat codes (cheat codes)
She knows even though all these girls
Hit my phone like free throws (free throws)
I don't need those, no, no
I don't need those
Head to toe, you're so beautiful
You're my girl so don't forget it

Straight up, no questions girl you're
The one that I want. All I really know is that
You're comin' across like just my type
Must've come from the Gods and I'm up at the top
Come join me and nah, I don't really have a choice
See, I know leavin' you is gonna make you feel blue like Boysie
But right now me and you should just chill
And enjoy these moments and make them last
I'm makin' them lane switch fast quit livin' in the past
Come live in the right now, turn the lights down
Draw yourself a bath so that we can relax
Yeah I like how you make me feel
Like no one else exists from chi town to the bay

The wheels don't stop so hop on in come rock with this

Never thought I'd find this woman
But here you are in front of me
So I think we should get a move on
Got no time to waste so let's cut to chase

She plays the type of games
That make me want
My cheat codes (cheat codes)
She knows even though all these girls
Hit my phone like free throws (free throws)
I don't need those, no, no
I don't need those
Head to toe, you're so beautiful
You're my girl so don't forget it
No, don't forget it, so don't forget it
No, don't forget it

I gave it all to you so give it all to me
You know I'll fall for you I know you'll fall for me
And you don't gotta worry, oh no
You're the only one that makes me feel like
Ooh la la, ooh la la
Ooh la la, ooh la la
And you're my girl now don't forget it

She plays the type of games
That make me want
My cheat codes (cheat codes)
She knows even though all these girls
Hit my phone like free throws (free throws)
I don't need those, no, no
I don't need those
Head to toe, you're so beautiful
You're my girl so don't forget it
No, don't forget it, no don't forget it
No, don't forget it, so don't forget it
Don't forget it, no, don't forget it
No, don't forget it, yeah, don't forget it
