

Stick Around

Martin Sexton

Love is what I feel
When you walk into my living room
I fall head over heels
When you whisper in my ear
But I did not know a thing
When I found your makeup
In my drawer and your things
Under my sink
But I guess its pretty clear
Now Im walking around
With my head in the clouds
And my feet two feet off the ground
Sure would be nice if you decide
To stick around
(Stick around)

Fear is what made me say
The stupid thing I said that day
And I tried to take it all back
With a copy of Abbey Road
It was my, old pride
I was so uncool but you let it slide
And yes, I gotta confess
You ever bend up my heart
Now its nothing short of amazing
They way you can hang when I freak out
So it would be nice if you decide
To stick around
Stick around
Stick around
Stick around
(Stick around)

Now Im walking around
With my head in the clouds
And my feet two feet off the ground
And it would be nice if you decide
I wouldnt think twice if you decide
Sure would be nice if you decide
To stick around
(Stick around)
