Jet Boy Blue

America

Jet boy blue
You steal and you think that it's right
Like a thief in the night
Ah, oh yeah, I'll tell you it's true
You come around with your stories to tell
I don't hold no interest but I let you go
I know you've fallen under his spell
Don't let him kill you hell only fill you with lies
You're a fool and you know it
Done your best not to show it but it's all over you're through
Jet boy blue hell only take you for a ride
Only cost you your pride, jet boy blue
Stop, stop while you're still ahead
You've got a lot to learn
You're still so young
Listen to what your mama said
Try to tell you go to hell
You're just a kid don't take no advice
You never think twice
Close the door jump in, don't mention what you did
Stop, stop while you're still ahead
You've got a lot to learn
You're still so young
Listen to what your mama said
You're a fool and you know it
Done your best not to show it but it's all over you're through
Jet boy blue hell only take you for a ride
Only cost you your pride, jet boy blue
Stop, stop while you're still ahead
You've got a lot to learn
You're still so young
Listen to what your mama said
Jet boy blue
You steal and you think that it's right
Like a thief in the night
Wo, jet, jet, jet, jet boy blue
Jet boy blue, jet boy blue
Jet boy blue, jet boy blue
Jet boy blue, jet boy blue, jet boy blue
