

# Lethal Killers

## Abandoned Pools

Is it not enough for you to be alive  
Did you have to create God to survive  
This is all we have and all we have is everywhere  
There are so many stars  
The church and state are lethal killers  
If this is all we have  
Life seems so much better  
Life seems so much deeper than before  
Does it make you feel much better to stay unaware  
Are you living for a heaven that might not be there  
This is all we have and all we have is everywhere  
There are so many stars  
The church and state are lethal killers  
If this is all we have  
Life seems so much better  
Life seems so much deeper  
And now I'm sure that this is all we have  
Life seems so much better  
Life seems so much deeper than before  
This is all we have  
And all we have is everywhere  
This is all we have to be alive  
(Is it not enough for you)  
And all we have is everywhere  
(To be alive)  
This is all we have  
And all we have is everywhere  
This is all we have  
(Did you have to create God?)  
And all we have is everywhere  
(To survive)  
This is all we have  
And all we have is everywhere  
There are so many stars  
The church and state of lethal killers  
If this is all we have  
Life seems so much better  
Life seems so much deeper  
And now I'm sure that this is all we have

Life seems so much better  
Life seems so much deeper than before
