lss

Neglect

The lights are now on us
The stage surrounds us
But it's you
It's you I rememberThis maybe our best gig
The most well attended
But it's you
That I wanna be withCos whenever you're not here
There's this void I feel within
It's you I crave
And needCos I'm here, and you're there
It's too much for me to bear
So hold on, soon I'll be homeThe times that we're apart
Gets too familiar
What I want
Is to be with youCos the last song syndrome here
Is your voice I hear so clear
You said you'll wait
For meI miss the way you touch my face
I miss the way to say my name
I miss you, oh baby
I wish you're here with meCos I'm here, and you're there
It's too much for me to bear
So hold on
