

Hologram

Crown the Empire

Through your eyes I fight for gravity, a place to stand, and a place to breathe
When the walls begin to shake in the home you thought you knew
Will you run? Will you stay? Will you choose? Do you know who I am? I'm so afraid you'll never understand
There's a part of me still lost out there, and I just want to know, yeah I just want to know
Am I becoming a hologram? Close your eyes from the darker side of things
A shade of grey hidden under sheets When the walls begin to shake in the home you thought you know
Will you run? Will you stay? Will you choose? Do you know who I am? I'm so afraid you'll never understand
There's a part of me still lost out there, and I just want to know, yeah I just want to know
Am I a part of a hologram?
Now I think I'm worried that I'm in too deep, like a phantom that you'll never see
So I just want to know am I a part of the hologram? Shadowed in time, another road redefined, redefined
Shadowed in time, another road redefined, redefined Do you know who I am? I'm so afraid you'll never
understand
There's a part of me still lost out there, and I just want to know, yeah I just want to know
Am I a part of a hologram?
Now I think I'm worried that I'm in too deep, like a phantom that you'll never see
So I just want to know am I a part of the hologram? Shadowed in time, another road redefined, redefined
Shadowed in time, another road redefined, redefined
