

Massage the History

Sonic Youth

Oil dripping on my head
Let's go back to bed
Bring you back to me
Bring you back to me Oil dripping on my head
Bring you back
From the dead
From the dead Here's wishing you were here with me
Here's wishing we could massage
History, history I'm witness to what you do
Anything that you feel
In between, in between
You and me, you and me
Bound at sea, floating on debris You're so close, close to me
You're so close, close to me Oil dripping on my head
Let's go back to bed
Bring you back, bring you back
From the dead, from the dead Wishing you were here by me
Wishing you were here
Let's massage history All the money's gone
All the money's gone
Funny it was never here
It was never here Here's a song, here's a song
To massage along, history along Come with me to the other side
Not everyone makes it out alive
Come with me to the other side
Not everyone makes it out alive I want you to suck my neck
Suck
