

Back in the Saddle

Stuck Mojo

No trust, love sux, hard work, false words,
Hard crushed, boo hoo, who jerked who?Broke my heart, fell apart, but like Steve Austin,
Bigger and better now.

No longer a fool, don't think that it's cool,Fucking with jezebels, naw wedding bells.

I tell the trooper don't let her scoop ya, she's bound to dupe ya

Then I got my teflon vest on baby.

No more trick ass ho's driving me crazy.

I cleared my vision,I'm focoused and locked

get off my jock

you used to clown

you knocked me down but I'm...Back in the saddle.You knocked me down but I'm...

Back in the saddle.

You knocked me down but I'm...Back in the saddle.

You knocked me down but I'm...Back in the saddle.Lonley woman, seeking passion,

Sex over, psycho drama,

Hard crushed, boo hoo, who jerked who?

Like wild men I'm gonna rebound and I'm clowning you stupid wench,

Making me sick, you're in my mix, you need to fix your whole personality casualties,I pull the switch on your
silly sadilly ass and all you players taking notes,

Causing fatalities, the rate gets high.

We're teaching class.

Used and abused, hope you don't lose,Emotionally clowned, you knocked me down but I'm...Back in the
saddle.You knocked me down but I'm...

Back in the saddle.

You knocked me down but I'm...

Back in the saddle.

You knocked me down but I'm...

Back in the saddle.Here stand alone, don't need another clone,

Check out the aftermath of my broken path.

Still you do not see how fragile I may be,

Instead you want to play games and get into my head

Here stand alone, don't need another clone,Check out the aftermath of my broken path.Still you do not see how
fragile I may be,

Instead you want to play games and get into my headYou knocked me down but I'm...

Back in the saddle.

You knocked me down but I'm...

You knocked me down but I'm...

Back in the saddle.Back in the saddle.

You knocked me down but I'm...

Back in the saddle.
