

# Fireblazin

## Capital Kings

You came from heaven down to earth  
and carried the weight of every  
pain and every hurt  
Your life was a portrait of your love  
Love  
and like a beating drum  
Now you are alive in us

We've got a fireblazin in our hearts  
No we're never gonna stop  
Until the whole world knows  
Who you are  
We've got a fireblazin in our hearts  
No we're never gonna stop  
Until the whole world knows  
Who you are

We are a city that believes  
that when we're lost in you  
We find everything we need  
So let our lives be a portrait  
Of your love  
Love  
and just like the rising sun  
Break out and shine through us

We've got a fireblazin in our hearts  
No we're never gonna stop  
Until the whole world knows  
Who you are  
We've got a fireblazin in our hearts  
No we're never gonna stop  
Until the whole world knows  
Who you are

You wreck us  
You wreck us with your love  
and forever we are yours  
We are yours  
You wreck us

You wreck us with your love  
and forever we are yours  
We are yours

We've got a fireblazin in our hearts  
No we're never gonna stop  
Until the whole world knows  
Who you are

We've got a fireblazin in our hearts  
No we're never gonna stop  
Until the whole world knows  
Who you are

You wreck us  
You wreck us with your love  
and forever we are yours  
We are yours

We're never gonna stop  
Until the whole world knows  
Who you are
