

Tonight

Jay Sean

I'm gona give it to you tonight
I'm gona give it to you tonight
I'm gona give it to you tonight
Tonight, tonight, tonight, yeah You must be a comedian, oh
This must be your stand up routine
Girl, I can't take you serious, no, no
Did you think that you were getting off that easy? When your body's calling me
Like a moth to the flame, oh
And I can tell that you wanting me
And shorty, I feel the same
So you ain't going nowhere Did you think I was letting you go, oh, tonight?
Did you think I was letting your body outer my sight?
Wanna do some real crazy things with you, I wanna try
You're about get it, girl, you're about to get it tonight Oh, tonight, oh, tonight, oh
Girl, you're about to get it tonight
Oh, tonight, oh, tonight, oh
Girl, you're about to get it tonight I bet you thought you was teasing me, no, no
I didn't know all along you was playing my games
Did you think that chick could shake it in front of me, girl?
And I wouldn't at least demand a taste 'Cause you got my mouth watering
And your body's what I crave, yeah
And I won't stop till you let me in
And I hear you scream my name
I ain't going nowhere Did you think I was letting you go, oh, tonight?
Did you think I was letting your body outer my sight?
Wanna do some real crazy things with you, I wanna try
You're about get it, girl, you're about to get it tonight Oh, tonight, oh, tonight, oh
Girl, you're about to get it tonight
Oh, tonight, oh, tonight, oh
Girl, you're about to get it tonight Close the door, turn off the lights
Let me kiss your neck down to your thighs
You ain't going nowhere till the morning light
I'm gonna make you mine tonight Did you think I was letting you go, oh, tonight?
Did you think I was letting your body outer my sight?
Wanna do some real crazy things with you, I wanna try
You're about get it, girl, you're about to get it tonight Oh, tonight, oh, tonight, oh
Girl, you're about to get it tonight
Oh, tonight, oh, tonight, oh
Girl, you're about to get it tonight I'm gona give it to you tonight, oh

I'm gona give it to you tonight, oh
I'm gona give it to you tonight
Tonight, tonight, tonight, yeah
