Love Song

Ginger Millermon

Just a little girl down on my knees
Praying for the man I'd love
Such a wonder and curiosity
Lord who will he be
I could never have imagined in all my life
God still the love for me
Coz you're everything i ever dreamed of
And everything you should be
You're my best friend in rainy days
When my tears are close at hand
You're my true love on a Sunkist beach
Walking barefoot through the sand
You're my steady strength when despair abounds
And the wind of sorrow rage
Gently guiding in love seeking God above
You're my love song you're my friend
Now we've been through the valley deep
For chasm dark and long
I cried on your shoulders you lifted my arms
Where did we go wrong
I could never have imagined in all my life
God still the love for us
By his amazing grace we have to come to faith
And found a deeper stronger love
You're my best friend in rainy days
When my tears are close at hand
You're my true love on a Sunkist beach
Walking barefoot through the sand
You're my steady strength when despair abounds
And the wind of sorrow rage
Gently guiding in love seeking God above
You're my love song you're my friend
You're my best friend in rainy days
When my tears are close at hand
You're my true love on a Sunkist beach
Walking barefoot through the sand
You're my steady strength when despair abounds
And the wind of sorrow rage
Gently guiding in love seeking God above

You're my love song you're my friend
