

# That's The Way Love Is

**Byron Stingily**

Two people take a vow to be together  
and live and love each other forever.

They promise to love a lifetime  
funny thingthen they change their minds.

They both go their seperate ways and love is just a memory.

But a young heart doesn't stay sad longanother love soon comes along.That's the way love is  
that's the way love is that's the way love is.

Two people don't get along  
deep down inboth have feelings very strongThey try hard to conceal it.  
Their hearts burn 'cause they both know they can feel it.That's the way love is  
that's the way love is that's the way love is.Lovers leave without a reason  
feelings change just like seasons.

In love nothing's for certainThere's no use in pretending what's behind the curtain.That's the way love is  
that's the way love is that's the way love is.No one knows how this feeling goes  
it's hard to believe

Even stranger to conceive.

It's so gratifying  
love's feeling  
ain't no denying.

Yet it's so unfair when the feeling's no longer there.
