

Dream Sweet Dreams About Me

[Glen Campbell](#)

Baby won't you dream sweet dreams about me
Let me share your love even if it's only in your mind
Baby won't you dream sweet dreams about me
Dreams of happiness and secret pleasures we have yet to find
And though we're far apart won't you treat me in your heart
Till I'm back in your arms where I belong
And dream sweet dreams about me till I'm home
The time has come and it won't keep that flame on the ground
much longer
I've got to say goodbye for a while
So hold me one more time cause hon I'm gonna miss you oh I miss you
So before I go just let me see your smile
And baby won't you dream sweet dreams about me
Let me share your love even if it's only in your mind
And though we're far apart
Baby won't you dream sweet dreams about me till I'm home
