## Bobby Tahouri

In the idle light of a fading day  
Theres a past I lost  
One I gave away  
One I used to knowCaught in the dust  
Of a desert plain  
Waiting for  
The rains to fallIts something that I feel, rain falls  
Something that I feel when rain falls  
More than a world away  
Its always here insideIn all that has overgrown  
Almost underground  
Could never be all erased  
Only lost and foundOne I left behind  
Caught in the dust of a desert plain  
Waiting for  
The rains to comeIts something that I feel, rain falls  
Something that I feel when rain falls  
More than a world away  
Its always here inside
