

We Come Out At Night

Snake! Snake! Snakes!

When you go out
where are you running
you seem to crash round the shutter
when they come out
things seem dark
when you're a part of them
why'd you live it up so much
when you can't ask

Save it lets ride overnight
when theres no one to fail you
ride baby lets ride all will smother or break you

You can't change
around for no one
even though it feels more right by the minute
said it yourself when's the trust start to slowly fade
and why'd you give up so much to only ask

Save it lets ride overnight
when theres no one to fail you
ride baby lets ride all will smother or break you
oh darlin lets ride all night all right
ride overnight
till theres nothing to drain you

you sold out to repitition
you can turn back now
I can take it
Let the sun come out
Let the sun come out
Let the sun come out
Let the sun come out

Baby lets ride over night
when theres no one to fail you
ride baby lets ride all will smother or break you
oh darlin lets ride all night all right
ride overnight

till theres no one to drain you

ooh
