

Darkside

Zara Larsson

I'm a villain and a beast, a monster underneath your sheets
'Cause I'm not exactly who you think I am
I'm a giant and a ghost, I disappear before you know
But tonight I'm gonna hold you in my hands

I don't want you scared at all
Analyzing when we talk
So my lips have sealed the way I feel inside

Cause what's done is done, isn't done yet
Nothing's imminent, but I think about it every minute
Of every day, of every day
Enough's enough, but I'm not given in yet
Even if it sends him over the edge

Cause everybody has a dark side,
And I of course, never meant to be the bad guy but now I'm lost
I don't wanna waste your time, or piss you off
Cause everybody has a dark side

I'm the devil and I'm cursed,
It feels like every moment twirls
I would sell my soul to make this go away

There's a good to every bad,
Here's the thing, now understand
I believe that we can make a change

What's done is done, isn't done yet
Nothing's imminent, but I think about it every minute
Of every day, of every day
Enough's enough, no I'm not giving in yet
Even if it sends him over the edge

Cause everybody has a dark side,
And I of course, never meant to be the bad guy but now I'm lost
I don't wanna waste your time, or piss you off
Cause everybody has a dark side

Before we need a second chance, there's the one we have

But I know that you and I are pulling away
Everybody has a dark side
Everybody has a dark side

Oh I don't wanna end this on a low,
I only wanna fix it cause it's broke,
I don't wanna take one for the road,
Cause wanna make it solved

Cause everybody has a dark side,
And I of course, never meant to be the bad guy but now I'm lost
I don't wanna waste your time, or piss you off
Cause everybody has a dark side

Before we need a second chance, there's the one we have
But I know that you and I are pulling away
Everybody has a dark side
Everybody has a dark side
