

Say Yes

Big Deal

Now I know, you can't go on
Not knowing, Never knowing
What it's like to be alone
Well now you know, now you know it
So cool it down, foolish child
You always were the one
If you decide, it's paradise, it's paralyzing, oh
It's on and on, on and on
I won't tell you, won't tell you
Everything works out right
I won't tell you, won't tell you
Everything works out right
Say yes, stay out
Never coming down, never coming down
Say yes, stay out
Never coming down, never coming down
If you call out in the night,
I'll know it, I'll know it
When another sweeps aside
I lose the right, I lose my mind
I was ready
I was ready
Are you ready?
Are you ready?
Just let it happen
I won't tell you, won't tell you
Everything works out right
I won't tell you, won't tell you
Everything works out right
Say yes
Stay out
Never coming down, never coming down
Say yes
Stay out
Never coming down, never coming down
I won't tell you, won't tell you
Everything works out right
I won't tell you, won't tell you
Everything works out right

Say yes
Stay out
Never coming down, never coming down
Say yes
Stay out
Never coming down, never coming down
Say yes
Stay out
Never coming down, never coming down
Say yes
Stay out
Never coming down, never coming down
