

# Galaxy

## Nine Lashes

It's something growing inside  
it's pushing out of my mind  
a simple thought  
taking over every part of me  
what if our days run short?  
time is so hard to ignore when waiting for the sound  
I'm as ready for the journey now as I'll ever be  
I've been waiting for my love to come and rescue me  
Let's get carried away  
and find ourselves where we want to be  
Whoa, oh, oh!  
Let's get carried away  
and find our way to the galaxy, follow the mystery  
Whoa, oh, oh!  
My heart is pounding inside  
It's not a day I'd rewind  
Though trouble came it made a way for me to be with you  
And now my days run short  
I've let my time run its course been waiting for the sound  
I'm as ready for the journey now as I'll ever be  
I've been waiting for my love to come and rescue me  
Let's get carried away  
And find ourselves where we want to be  
Whoa, oh, oh!  
Let's get carried away  
And find our way to the galaxy, follow the mystery  
Whoa, oh, oh!  
And my heart found the melody  
And its pulsing inside of me  
when the days done with gravity  
I will join you in the galaxy  
Whoa, oh, oh!  
Whoa, oh, oh!  
I will join you in the galaxy  
Whoa, oh, oh!  
Whoa, oh, oh!  
I will join you in the galaxy  
let's get carried away  
and find ourself where we want to be

Let's get carried away  
And find the way to the galaxy  
Follow the mystery  
Whoa, oh, oh!  
Let's get carried away  
And find ourself where we want to be  
let's get carried away  
And find the way to the galaxy  
Follow the mystery  
Whoa, oh, oh!  
End
