Step Up

Enter Shikari

ComeIf our own lives aren't directly affected
Then it don't need to be corrected
Our fucking gift is our ignorance
Yeah, we're really seriousAs they're paying for deliverance
We shut ourselves from the outcries
We blinker ourselves from the eyesores
'Cause we know we've got greatness within usWe have greatness within us
Innovative, giving, determined
It's time for the best in us to come outAnd you can find inbalance
You can destroy inbalance
And you can change your values
Step up todayYes, solidNow let me get one thing straight, you know what?
Sometimes I do wish apples were our currency
So your hoarded millions would rot in their vaults
And that'd teach you to lay off the assault
That you're barraging on the lands of the poorAnd I know we've all got enough problems of our own
But, but they're not show stoppers sitting on our throne in a home
Heated by a life unknown to the exploited
And it's so frustrating, the fucking state we're inIf our own lives aren't directly affected
Then it don't need to be corrected
Our fucking gift is our ignorance
Yeah, we're really seriousAs they're paying for deliverance
We shut ourselves from the outcries
We blinker ourselves from the eyesoresAnd you can find inbalance
You can destroy inbalance
And you can change your values
Step up todayAnd you can find inbalance
You can destroy inbalance
And you can change your values
Step up todayWhy is it that so many companies
Don't deserve us and can't get rid of us?
British Empire built free trade
Opportunistic, pushing
