A Fridge Too Full

Cliteater

Now I have to live with my sins
And beatiful were the times
When I committed them
I might get caught because I haveA fridge too full
Killed too many people
Stuffed with corpses
A fridge too fullDon't you see?
You force me to be a cannibal
Now I have to eat my victims
SO there will be no trace left[Repeat chorus X2]
A fridge too full
Forced to be a cannibal
A fridge too full
Forced to be a cannibalYou won't allow me
To practice my hobby
My most favourite thing
Killing people, killing people[Repeat chorus X2]Why are there
So many cannibals in the world
They all have a fridge too full
