Divine Sorrow

Barfalk

Dearie blossom
I've gone down to old rock bottom
Now I know the love in my heart was true!
Divine sorrow
I thank you for the joy that follow
Back then my friend
If only you knew
It is harder when you love beyond belief
But I'm a fool to let you go
So this is for you my love!We will never, we will never have a change of mind
We belong together!
We will never, we will never be the weary kind
We sing our sorrows away!
We sing our sorrows away!
We sing our sorrows away!Divine blessing
I wish I would've heard your lesson
Now I know your words were my only truth!
I'm just venting
Or maybe I'm done confessing
Back then my friend
If only you knew
It is harder when you love beyond belief
But I'm a fool to let you go
So this is for you my love!We will never, we will never have a change of mind
We belong together!
We will never, we will never be the weary kind
We sing our sorrows away!We can make it through Judgment Day
We won't go fading away
All I ever know must be Heaven where you come from
We can make it through cloudy skies
By your side I feel alive
All I ever know must be Heaven where you come from, yeah!
