

Let's get down

Supafly

Yes
Tony Toni Tone
And DJ Quick
You didn't think we could flip it on yo ass, huh?
Something for the dance floor
In a real way
It's going down like this forever
And a day

Now what you hear is not a drag
Cause Mr. DJ Quik got a brand new bag
But first I gotta bang bang
A boogie for the boogie
To the rhythm of the ghettoey streets
Check it out now
You trying to give me some Eight Ball
But no way
I'd rather have a Mimosa
With Crystal and O.J., yeah
Just a little something bubbly and tingly
To have me walking around naked
But wait a second

The function's on
Around midnight
What time is it
Are you inside
Available
To come and play
Give me a clue
So I don't have to
Look for you

[Chorus]
Come on let's get down, let's get down, let's get down
Come on let's get down
In my black Chevrolet
Come on let's get down, let's get down, let's get down

Come on let's get down, let's get down

Yeah, now we don't need a club

We can do it at my house

My front door's open so homey's can bust it out

And ladies if you're coming leave your children at the nursery

So you can get slow on the anniversary

Kill me

I dip dip da

So don't be looking stupid when I unfasten your bra

You know you want to mack this

Because I come stronger than the IRS

Whenever you done got delinquent on your taxes

Now here I am

Staring at you

I need a drink

You need one too

Who is your friend

She don't look nice

But I know she will

Later on tonight

Come on let's get down

[Chorus]

Now I'm at the club

And I'm off that drug

The one they call alcohol got me acting y'all

I hump two first before I hump two more

And now I'm throwing up my guts out the car door

Over consumption you know how it is y'all

Got your homey beggin' for some Pepto Bismol

But when my stomach's right I'll be back tonight

To get that lady I was grinding on the wall

Now that I feel a little better than I felt a little while ago, yeah

I'm going back to the same spot

Where I met you on the floor

Now table one, that's my folks

And table two, that's my folks

And everybody knows my name

Now table three that's B. Grund

And table four that's G-One

You best be prepared

Cause it's all a game you know

Come on let's get down, let's get down, let's get down
Come on let's get down, let's get down, let's get down
Come on let's get down, let's get down, let's get down
Come on let's get down, let's get down, let's get down
In my black Chevrolet

I gotta get my groove on (keep movin' and groovin', movin' and groovin')

I gotta get my groove on (keep shakin' that ass, shakin' that ass)

I gotta get my groove on (keep movin' and groovin', movin' and groovin')

I gotta get get my groove on (keep shakin' that ass, shakin' that ass)

I'm groovin' (say what?)

Movin' (yeah)

Yeah

[Chorus: x2]
