

# Spotlight

## Future Leaders Of The World

Tell you mother to have her vision examined  
Tell your practitioner to practice famine  
Children wearing suits hold briefcase family feuds  
In juke box radio tunes, coming to a store near you  
We're gonna pull you in, never gonna let you out  
Make sure you know your way in a crowd  
Freedom only costs as much as you can buy  
They'll sell you whole life in pieces, rest till you die  
So buy a life and sell a teen prophecy  
Glam horror mock silver screen guillotine  
Put the whole family on trial tonight  
Turn the television off and turn on the lights with me  
Take [Incomprehensible]  
We're gonna pull you in, never gonna let you out  
Make sure you know your way in a crowd  
Freedom only costs as much as you can buy  
They'll sell you whole life in pieces, rest till you die  
We're gonna pull you in, never gonna let you out  
Make sure you know your way in a crowd  
Freedom only costs as much as you can buy

They'll sell you whole life in pieces, rest till you die  
Billboards advertise magazines  
Record our memories, rape our dreams  
In Hollywood faces burnt like dollar bills  
Trade your drugs for my pills, Mr. Capital Hill  
Sell me war, you're a king now  
Get up in the spotlight, get up in the spotlight  
We're gonna pull you in, never gonna let you out  
Make sure you know your way in a crowd  
Freedom only costs as much as you can buy  
They'll sell your whole life in pieces, rest till you die  
We're gonna pull you in, never gonna let you out  
Make sure you know your way in a crowd  
Freedom only costs as much as you can buy  
They'll sell you whole life in pieces, rest till you die  
Spotlight, the spotlight crowd  
We're in the spotlight, the spotlight crowd  
Spotlight, the spotlight crowd

We're in the spotlight
