

# Inkless

## Smashing Pumpkins

The stars are out tonight  
And what you need of me you've got inside you  
Just take me home, take me home don't fight  
But drive me home the wrong way  
No loss spared  
For losing you ain't right  
You haunt where  
Spritis take their time  
It's time I can't seem to fight  
The stars are out for us  
And what you feel for me rides beside you  
Just take me home, take me home  
Don't fuss  
But drive me home the right way

We'll uncover there's no other faith but us  
A faith in love unseen  
Trace the face of love unseen  
Don't shadow up what we mean  
Uncover what we're meant to be  
And come unlace your light  
The stars are out tonight  
The stars are out tonight  
The stars are out  
The stars are out tonight  
The stars are out  
The stars are out tonight  
The stars are out  
The stars are out tonight
