

We Are Dreamers!

Tindersticks

It's out there
Skulking around
Shuffling outside of our door
Whispering
It beckons us still
Tapping away at our locks
Through breaking days and falling nights
It waits
And when hunger creaks inside us
Then it breathes its offer again
This is not us
This is not us
We are dreamers
This is not us
This is not us
We are dreamers
You can rob us
You can trick us
Peer over our shoulders
And steal our ideas
Come inside
There's nothing left here
Just a table to dance on
And a song in my ear
As the cold creeps and the night falls
We are dreamers
And as the cold falls and the hunger creaks
We are dreamers
This is not us
This is not us
We are dreamers
This is not us
This is not us
We are dreamers
We hang on
As we hurtle through this space
Together we cling as we are spun
In the beauty of our dreams
So don't wake me, don't shake these bones
Ah, don't rattle those keys

So don't wake me, don't make me look
Ah, you gotta let me dream This is not us
This is not us
We are dreamers
This is not us
This is not us
We are dreamers When the night it falls
And the four winds blow
With the hunger creaking inside
When the cold it creeps
And this nothing'll burn
The bitch he already desires [??] You can rob us
You can trick us
You'll peer over our shoulders
And steal our ideas
Come inside
There's nothing left here
Just a table to dance on and a pot we might piss in
And the cold creeps and the night falls
We are dreamers
And the cold falls and the hunger creaks
This is not us
This is not us
We are dreamers
This is not us
This is not us
We are dreamers
This is not us
This is not us
We are dreamers
This is not us
This is not us
We are dreamers
