

# Tempt You (Evocatio)

## Nothing but Thieves

Darling, I'm gonna build you something  
Sweetie, you need something better  
Let me build you something better  
Heaven, it's lonely in your heaven  
Darling, we should get together  
I could worship you foreverHow do I tempt you, out of the city?  
Out of the city  
Out of the city tonightHow do I tempt you, out of the city?  
Out of the city  
Out of the city tonightHoney, just let me spend my money  
"Cause we could make it simple  
Wanna build a brand new temple  
Heaven, there's room for us in heaven  
We could stay this way forever  
While your people pray togetherHow do I tempt you, out of the city?  
Out of the city  
Out of the city tonightHow do I tempt you, out of the city?  
Out of the city  
Out of the city tonightHow do I tempt you, out of the city?  
Out of the city  
Out of the city tonightHow do I tempt you, out of the city?  
Out of the city  
Out of the city tonight
