On the First Night

LaFee

one look into your eyes
i can tell whats on your mind
but the time ain't right
to feed the fire
please understand, I'm not readybeen dreaming of, the two of us together
i want it too, oh do i ever
but,the timing ain't right,we've got to take our time
be patient, I'm not readyon the first night
this can`t go down
please understand, that ain't what I'm about
on the first night
i need you to wait
cause the time`s not right for all the waywill you do me
will you do me
will you do me, this favourI've been dreaming of, the two of us together
me giving in, on a night to remember
i am so scared to loose you,but we can`t go ahead
tell me true now, do you love me?on the first night
this can`t go down
please understand, that ain't what I'm about
on the first night
i need you to wait
cause the time`s not right for all the wayis this love
this could be love
i love to love you
please don't rush meon the first night
this can`t go down
please understand, that ain't what I'm about
on the first night
i need you to wait
cause the time`s not right for all the wayon the first night, i need you to wait
cause the time`s not right for all the way
