# Mad Dialect

## The Damage Manual

Take no denial
No for an answer
Make a wish and make it total
Take a risk and make it fatalI love to be here
Because it means so much to me
I love the action
Of a forced conspiracyThe word was strong
But you answered wrong
Mad dialects, mad dialects
Broken glass of a language
Mad dialects, mad dialectsLook for deception
No common truths
Link it up to every phone call
Say you lied, then hang it upWell, it looks so doubtful
Just like every thing's erased
The text is backwards
But it is hammered to the pageThe word was strong
But you answered wrong
Mad dialects, mad dialects
Broken glass of a language
Mad dialects, mad dialectsCorrupted future
Beneath your wires
Circuits floored by lie detectors
Blackout lights and resurrectWell, I see it surging
Just like it burns past other halves
And still submerging
Electric future never lastsThe word was strong
But you answered wrong
Mad dialects, mad dialects
Broken glass of a language
Mad dialects, mad dialectsThe word was strong
But you answered wrong
Mad dialects, mad dialects
Broken glass of a language
Mad dialects, mad dialectsThe word was strong
But you answered wrong
Mad dialects, mad dialects
Broken glass of a language
Mad dialects, mad dialectsThe word was strong

But you answered wrong
Mad dialects, mad dialects
Broken glass of a language
Mad dialects, mad dialects
