

# Friday Night

## Slick Shoes

Its Friday night, you want to hang out with your friends  
'Cause youve had it up to here  
School just started and you wonder to yourself  
Where did my summer go? But it will be all right tonight because its Friday night  
Lets go, lets all have some fun tonight  
All right, here we go, here we go tonight  
Its Monday again and it feels like it never ends Where did your life go? Did you forget what it was like?  
This week is way too slow, itll never end when will it go?  
Youve made it through the week and now you feel just fine  
There'll be no nervous breakdown tonight because its Friday night Lets go, lets all have some fun tonight  
All right here we go, here we go tonight  
It doesnt matter where we go or what we do, lets just do it now  
Go to the Gas N Sip and hang out there all night, itll be all right
