Wonder

Lamb

Lately I find myself amazed
At all around me everything I see
Like all of life's ablaze with light
That suddenly I see, only now I seeThe wonder, the wonder of it all
Wonder everywhere
More than we know
Heaven's not up there
But on earth belowThe wonder, the wonder of it all
Wonder everywhere
More than we know
Heaven's not up there
But on earth belowDon't know if God exists
But there's some magic out there
So much we're not aware
And sometimes suddenly
I hear a harmony sing
Of each and everythingThe wonder, the wonder of it all
Wonder everywhere
More than we know
Heaven's not up there
But on earth belowThe wonder, the wonder of it all
Wonder everywhere
More than we know
Heaven's not up there
But on earth belowThe wonder, the wonder of it all
Wonder everywhere
More than we know
Heaven's not up there
But on earth belowThe wonder, the wonder of it all
Wonder everywhere
More than we know
Heaven's not up there
But on earth below
