

Nothingness

Gorefest

An ugly race, no identify
A quest for change, your history
Empty eyes, vacant mind
I'll close the door, leave you behind All I see, fixed beauty
You all possess, the great nothingness You think of reasons you'll never find
You look for help, you are blind
I read your thoughts, dim and slow
I see you neon, it says go All I see, fixed beauty
You all possess, the great nothingness You count your time, your time is through
I just closed the door on you
You count your time, your time is through
I just closed the door on you 'Cause all I see, fixed beauty
You all possess, the great nothingness The great nothingness
