I swear I want this to last us a lifetime
Those are times we most ain't in our right mind
 High on prescription pills
 So much I miss the feeling
 If I could just play this shit off
 If I could just play this shit off
 If I could feel you (feeling)
 All I need is one evening (feeling)
 If I could feel you (up)
 All I need is one evening (up)

Oh, they throw me out of them heavens I promise I'll fall on that bed
If you don't mean me no harm nigga promise that I will not wait.

 No more
 No more
 Out in the know
 Is this time for real
 Is this time for real
 This Time
 Ahhh
 Ohhh
 Ahhh

I need to know which way I left the door
 Came without nothing
 No package, no luggage, no doe
 If I can be the one
 Ohhh
 If I can be the one
 I need to know
 Is this time for real
 This time

I swear I want this to last us a lifetime
Those are times we most ain't in out right mind
 High on prescription pills
 So much I miss the feeling
 If I could just play this shit off
 If I could just play this shit off
 Lord knows

They throw me out of them heavens I promise ill fall on that bed
If you don't mean me no harm nigga promise that I will not wait.

No more
No more
Out in the know
Is this time for real
Is this time for real
This Time
Ahhha
Ohhh
I need to know which way I'm left go
Came without nothing
No package, no luggage, no doe
If I can be the one
Ohhh
If I can be the one
I swear I want this to last us a lifetime
Those are times we most ain't in out right mind
How on prescription pills
So much I miss the feeling
If I could just play this shit off
If I could just play this shit offLord knows
