

Begin to Start

[MxPx](#)

They say to me, "Don't be hangin' on
If you won't go on, do I want to?"
I'll pray to see, I'll pray to know
Provide for me, won't let it goLife confuses me, can't find my way
Out of here, I think I'd rather stay
I think I'd rather stay
When do I begin to start?
Begin to let you into my heart?Why so sad when I look at you?
'Cause I'm away I know I feel it tooLife confuses me, can't find my way
Out of here I think I'd rather stay
I think I'd rather stay
When do I begin to start?
Begin to let you into my heart?They say to me, "Don't be hangin' on
If you won't go on, do I want to?"Life confuses me, I can't find my way
Out of here, I think I'd rather stay
I think I'd rather stayLife confuses me, I can't find my way
Out of here, I think I'd rather stay
I think I'd rather stay
