Fascination

Uh Huh Her

Up in the same situations
I think back to where we used to be
I?m guessing your eyes are focused on the thrill
But I?ve been thinking about you
And days I want us to
How can you wait for love to be over
How can you look away
Why do we say it?s loves fascination
Why do we walk away
I will leave the dark behind to save you

But then I think you?d rather be just walk away
Just keep in touch
I can?t find my way
A lost maze
But I?ve been thinking about you
In a way that I can?t face
How can you wait for love to be over
How can you look away
Say we stay for love?s fascination
Why do we want to stay
