You Are Mine

Phil Stacey

What's the reason why Da Vinci had to paint
Lennon had to write about peace
Martin had a dream, Patsy had to sing?
Where did Mozart find those melodies?
We all need inspiration, a spark that ignites
Something deep inside the soul
A masterpiece that defines a life
And you are mine, you are mine
Just to see your face calms the storm in me
Makes me see the world a little differently
Yeah, we all need inspiration, a spark that ignites
Something deep inside the soul
A masterpiece that defines a life
And you are mine, yeah you are mine
We all need inspiration, a spark that ignites
Something deep inside the soul
A masterpiece that defines a life
And you are mine, yeah you are mine
(And you are mine and you are mine)
(And you are mine and you are mine)
You are mine
(And you are mine and you are mine)
You are mine
(And you are mine and you are mine)
(And you are mine and you are mine)
(And you are mine and you are mine)
You are mine
Yes, you are a masterpiece
And you are mine and you are mine
And you are mine and you are mine
And you are mine and you are mine
And you are mine and you are mine
And you are mine and you are mine
And you are mine and you are mine
And you are mine and you are mine
