

Together

The Lilac Time

The angel and the devil
And the Son of heaven
And they're all walking along

Sometimes I think I'm with them
Walking down the street
But I could be wrong

And together
We can move the mountain
Turn the pain to pleasure
If we can stick together

I find living easy
I think the hours are good
People are crazy
But not misunderstood

And if you don't know that you're born
These days it's hard to miss
That we are dying

But

When you were stuck
You were out of luck
But now it's safer to stay stuck
And to never stray
