## Nutty Noah

I'd like to introduce you to a special lady in my life  
It's not my daughter not my sister not my cousin niece or auntie my mother or my wifeOoh, such a lovely lady  
Who suffers from Aerophagia  
She has a flappy epiglottis  
In her oesophagusShe was drinking something fizzy  
When her stomach got so busy  
Trying to push out all the unwanted airBut then she took a massive slurp  
And it really made her burp  
And it kind of caught her unaware  
It blew her backwards off the chairSo don't talk with your mouth full grandma  
Gonna swallow more air than food grandma  
Then you'll have to burp it up grandma  
And people might think you're rude  
So make sure that it's chewedGranny's such a charmer  
Welcome to her burp-o-rama  
She's a classy lady  
Belching up her onion gravyShe had a little treat  
And said I think that you'll agree  
That I like it but it doesn't like meYou know it's going to give me wind  
And she's burping with a grin  
Saying it's better off out than in
