Seven Day Weekend

Foghat

Oh, yeah, alrightI had myself a good job in the city Pushin' a pen and talkin' on the phone The money was good but the work was such a big drag I thought that my brain would turn to stoneBut I ain't gonna work no more I've got better things to do, I do I need a seven day weekend Spend some time with youThey told me if I stayed on for a lifetime I'd be an officer manager some day But my heart was never in the right place I only went there for the payBut I ain't gonna work no more I've got better things to do I need a seven day weekend Spend some time with you, oh, yeahWell, on Friday, the weekend rolls around Saturday, I'm gonna rock this town On Sunday, won't have to worry no more 'Cause Monday ain't so bad when there's no work in storeI guess the money comes in handy It helps me pay the bills and rent But if I stay too long on this job I'll wonder where my time all wentBut I ain't gonna work no more I've got better things to do, doo, bah, doo I need a seven day weekend Spend some time with you, oh, come on Whoo Well, Tuesday, I'll hang out on the beach Wednesday, this boy cannot be reached Thursday, I'll stand out in the rain When Friday comes, I'll start all over againBut I ain't gonna work no more I've got better things to do, you know I do I need a seven day weekend Spend some time with youI need a seven day weekend Spend some time with you I need a seven day weekend Spend some time with you, oh, yeah, with you
