

hellboy (prod smokeasac x yung cortex)

LIL PEEP

[Intro]

Can this be him?

The one I have waited centuries to see?

How strange

So far from his path that I barely see the promise of glory

Can this be him, this hellboy?[Hook (x2)]

You don't even know what I've been through

You don't gotta like me, ya bitch do

Blowin up my phone like "I miss you"

You know I love you by the way that I kiss you[Verse]

Leave me to bleed, I know I got you on your knees

But something keeps on telling me

It keeps on telling me

Peep, leave it alone, I'm good on my own

Mama miss me at home, but I'm good on my own

Baby I'm cold, back on the road

Show after show, fucking hoe after hoe

I swear it gets so lonely sometimes

Please just hold me one time

Fuck these hoes and fuck life

I've been waiting here all damn night

Not one call or text from you

You're the same as my ex, fuck you

(Bitch)[Hook (x2)]

You don't even know what I've been through

You don't gotta like me, ya bitch do

Blowin up my phone like "I miss you"

You know I love you by the way that I kiss you
