

# Showtime

## Nelly Furtado

Put on your best clothes  
We've been waiting too long for this moment  
I'll put on my best smile  
I'm shining inside and I'm proud of our love but  
Every time I turn around you say that you're not  
Checking for love in that way but  
Every time I come around you seem  
So ready for this  
Showtime, our love's coming out  
Lights, camera, action  
Show what we're about, cuz it's  
Showtime, our love's breaking out  
Let's show the world you're my boy  
I'm your girl, cuz it's  
Showtime, our love's coming out  
Lights, camera, action  
Let it all hang out, cuz it's  
Showtime, yeah our time is now  
Let's show the world you're my boy  
I'm your girl  
Let's break a leg out there  
This could be the start of the rest of our lives  
I've got so much to share  
And I'm ready to put it all out there for you  
But every time I come around you seem  
So afraid of what people might say  
But can't you see it's a game they play?  
Trying to cast a shadow on our love  
Showtime, our love's coming out  
Lights, camera, action  
  
Show what we're about, cuz it's  
Showtime, our love's breaking out  
Let's show the world you're my boy  
I'm your girl, cuz it's  
Showtime, our love's coming out  
Lights, camera, action  
Let it all hang out, cuz it's  
Showtime, yeah our time is now

Let's show the world you're my boy  
I'm your girl, cuz I  
I wanna love you when I wanna  
Wanna love you where I want to  
Wanna touch you when I want to  
Wanna kiss you when I wanna  
Showtime, our love's coming out  
Lights, camera, action  
Show what we're about, cuz it's  
Showtime, our love's breaking out  
Let's show the world you're my boy  
I'm your girl, cuz it's  
Showtime, our love's coming out  
Lights, camera, action  
Let it all hang out, cuz it's  
Showtime, yeah our time is now  
Let's show the world you're my boy  
I'm your girl  
Because it's not fair to love you in chains  
It's not fair to love you in chains
